

Volume 20, Number 6, December 2019

CONTENTS

Research Articles

Optical and scintillation properties of Tb-doped apatite single crystals	<i>Takayuki Yanagida and Noriaki Kawaguchi</i>	577
Thermoelectric properties of FeVSb_{1-x}Te_x half-heusler alloys fabricated via mechanical alloying process	<i>Rahidul Hasan and Soon-Chul Ur</i>	582
N₂ plasma treatment of pigments with minute particle sizes to improve their dispersion properties in deionized water	<i>Jingjing Zhang, Yeong Min Park, Xing Yan Tan, Mun Ki Bae, Dong Jun Kim, Tae Hwan Jang, Min Su Kim, Seung Whan Lee and Tae Gyu Kim</i>	589
A study on the ball-milling effect of calcined Mg-Al hydrotalcite on the CO₂ adsorption behavior	<i>F. Granados-Correa, J.L. Iturbe-García and J. Bonifacio-Martínez</i>	597
Structural and electrical properties of Ba(Sr,Ti)O₃/K(Ta,Nb)O₃ multilayer thin film for the application of electro-caloric devices	<i>Min-Su Kwon, Sung-Gap Lee, Kyeong-Min Kim and Seungkeun Choi</i>	603
Y₂O₃-stabilized ZrO₂, Ni, and graphene-added Mg by reactive mechanical grinding processing for hydrogen storage and comparison with Ni and Fe₂O₃ or MnO-added Mg	<i>Myoung Youp Song, Eunho Choi and Young Jun Kwak</i>	609
Effect of B₂O₃ addition on the Sintering of BaTiO₃-CaTiO₃ Composite Materials	<i>T. Bezzi, A. Chenni, F. Sellam, K. Sahraoui and S.E. Barama</i>	617
Study on NO_x reduction capacity of catalytic coated cordierite monolith	<i>Rekha Durairaj, Neelakrishnan Subramanyan and Divakar Duraiswamy</i>	621
Effect of MgO addition on physico-chemical, mechanical and thermal behaviour of Al/Si₃N₄ composite material developed via hybrid casting technique	<i>Shashi Prakash Dwivedi, Ashok Kumar Mishra and V. R. Mishra</i>	632
Roles of talc-illite on phase transformation, vitrification and physical properties of a triaxial porcelain body	<i>Suthee Wattanasiriwech and Darunee Wattanasiriwech</i>	643
Electrochemical properties of Ni-Mn hydroxide and carbon cryogel composite electrodes for supercapacitors	<i>Deuk Yong Lee and Young-Jei Oh</i>	649
Wet preparation of calcium phosphates from aqueous solutions	<i>Byeong Woo Lee and Il Gok Hong</i>	655
Modifications of structural and optical properties of copper oxide thin films by thermal annealing	<i>In-Sub Han, Ji-Soo Park and Il-Kyu Park</i>	660
Synthesis of TiO₂ nanoparticles using titanium tetraiso-propoxide and starch	<i>Soo-Jong Kim and Kenji Ogino</i>	665
