## CONTENTS

## Research Articles

- |                                                                                                                                                                          |                                                                                                                                                                                                                                                 |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Experimental investigation on serpentine, parallel and novel zig-zag flow fields for effective water removal and enhanced performance on 25 cm<sup>2</sup> PEMFC</b>  | <i>Muthukumar Marappan,<br/>Magesh Kannan Vijayakrishnan, Karthikeyan Palaniswamy,<br/>Karthikeyan Manoharan, Thanarajan Kumaresan and<br/>Jyothis Arumughan</i>                                                                                | 131 |
| <b>Mechanical properties of PLA and ABS parts produced with fused filament fabrication method</b>                                                                        | <i>İsmail Topcu</i>                                                                                                                                                                                                                             | 143 |
| <b>Synthesis and mechanical characterization of alumina based composite material for armor application</b>                                                               | <i>Muhammad Shahid, Rizwan Ahmed Malik,<br/>Hussein Alrobei, Jaehwan Kim, Muhammad Latif,<br/>Azhar Hussain, Muhammad Uzair Iqbal and Azeem Hafiz</i>                                                                                           | 149 |
| <b>Control of the microstructure of lightweight geopolymer by pressure control</b>                                                                                       | <i>Minjeong Kim and Yootaek Kim</i>                                                                                                                                                                                                             | 158 |
| <b>Experimental and numerical investigation on in-flight synthesis of Ga-doped ZnO nano-powder by Radio-Frequency induction plasma</b>                                   | <i>Jun-Seok Nam, Sang-Min Jeong, Min-Gyu Choi,<br/>Jun-Ho Seo and Shi-Young Yang</i>                                                                                                                                                            | 169 |
| <b>Thermal oxidation temperature effect on the phases and photocatalytic properties of silver-doped TiO<sub>2</sub> thin film prepared by co-sputtering</b>              | <i>Hui-Ru Xu, Ping-Yuan Lee, Ya-Wei Tsai and<br/>Ying-Chieh Lee</i>                                                                                                                                                                             | 179 |
| <b>Mesoporous carbon synthesized from sewage sludge and its electrochemical properties</b>                                                                               | <i>Jonggil Kwon, Kue-Ho Kim, Hyo-Jin Ahn and<br/>Yeon Hwang</i>                                                                                                                                                                                 | 186 |
| <b>Enhanced electrochemical performance of peony flower-like carbon-coated <math>\gamma</math>-Ga<sub>2</sub>O<sub>3</sub> nanosheets for lithium-ion battery anodes</b> | <i>Injun Jeon, Jin Hyun Hwang, Tae Gyun Kim,<br/>Linghong Yin, Hyung Woo Lee, Jong Pil Kim,<br/>Hyung Soo Ahn and Chae Ryong Cho</i>                                                                                                            | 192 |
| <b>Physical, morphological and mineralogical properties of ceramic brick incorporated with Malaysia's Rice Hush Ash (RHA) agricultural waste</b>                         | <i>Aneis Maasyirah Hamzah, Siti Koriah Zakaria,<br/>Siti Zuliana Salleh, Abdul Hafidz Yusoff, Arlina Ali,<br/>Mardawani Mohamad, Mohamad Najmi Masri,<br/>Sharizal Ahmad Sobri, Mustaffa Ali Azhar Taib,<br/>Faisal Budiman and Pao Ter Teo</i> | 200 |
| <b>Production and microwave electromagnetic shielding effectiveness of polyaniline-La<sub>2</sub>Ti<sub>2</sub>O<sub>7</sub>:Er,Yb composites</b>                        | <i>Ethem İlhan Şahin, Selim Burak Cantürk,<br/>Mehriban Emek, Seval Genç and Mesut Kartal</i>                                                                                                                                                   | 208 |
| <b>Electrocaloric effect in heterolayered potassium tantalate niobate thin films prepared by sol-gel method</b>                                                          | <i>Byeong-Jun Park, Sam-Haeng Lee, Ji-Won Kim,<br/>Joo-Seok Park and Sung-Gap Lee</i>                                                                                                                                                           | 214 |

<b>Preparation and characterization of zirconia ceramics with oxides addition</b>	<i>A. Rittidech, S. Wantrong and S. Chommi</i>	221
<b>Investigation of wear properties of mullite and aluminium titanate added porcelain ceramics</b>	<i>T. Boyraz and A. Akkus</i>	226
<b>Adsorption of Cr(III) from aqueous media on zeolite A prepared from fused fly ash by hydrothermal synthesis</b>	<i>Ulambayar Rentsennorov, Batmunkh Davaabal, Bayaraa Dovchin and Jadambaa Temuujin</i>	232
<b>A novel inverse opal zirconia pigment with controllable color saturation</b>	<i>Li-li Wang, Xin-xin Liu, Xiao-peng Li, Xiu-feng Wang, Li-na Feng and Xu-ri Hou</i>	240
<b>Effect of composition on the ability to form SiC/SiO<sub>2</sub>-C composite from rice husk and silica gel</b>	<i>Do Quang Minh, Tran Van Khai, Huynh Ngoc Minh, Nguyen Vu Uyen Nhi and Kieu Do Trung Kien</i>	246
